PERSONAL PROFILE

I am a Principal Technical Recruiter with 7 years of experience hiring across all facets of the software development space. I have specialised in areas such as Product Management and Staff Engineering. Through this I have discovered a passion for software development that has led me to take several coding courses, including a diploma. I am excited for this next step in my career!

INTERESTS

- I am obsessed with tech and the digital space in general. Coding has become a main hobby of mine and I try to stay on top of current trends. I spend a lot of time on YouTube.
- Video Games: I am an avid and passionate video gamer! I host a video game podcast with 2 of my friends: [Hey Look Listen!](#)

- Reading & Writing: I always have a new book on the go and have even tried writing my own novel in the past.
